Summary

I specialise in software development and user interfaces, before doing mobile software with Objective-C I did web programming with PHP, before that i did graphic design, 3d modelling, architectural and computer aided design , I also have a certification as a ISO internal auditor and completed the Cisco CCNA 1 to 4 courses.

In terms of languages i am currently transitioning from Objective-C to Swift, in the past i wrote a good deal of PHP a bit of Perl, markup and database query languages.

In terms of graphic design i am familiar with working in Autodesk 3ds Max, Modo, Adobe Photoshop and Illustrator.

As a person my strengths are synthesization, simplification, discipline and analysis, i don't need much guidance, am used to be self-directed and motivated.

Experience

senior iOS developer at The Distance

October 2016 - Present

Owner

July 2002 - Present
